WATER ADVISORY LIFTED

St. Lucie County, FL – Follow up samples were in the acceptable range for enteric bacteria, the advisory for the river waters at River Park Marina, Westmoreland Tract Canoe Launch and Veterans Park has ended.

Enteric bacteria inhabit the intestinal tract of humans and animals and their presence in recreational waters is an indicator of fecal pollution. The presence of these bacteria may come from storm water runoff, pets, wildlife and human sewage.

The advisory had been in effect since May 18, 2018. These areas will continue to be tested every other week along with ocean beaches, South Beach Causeway, and JC Park.

For more information, please contact St. Lucie’s Environmental Health Division at 772-873-4931.

About the Florida Department of Health

The department works to protect, promote and improve the health of all people in Florida through integrated state, county and community efforts.
